We realize your time is valuable and this is potentially a very large group, therefore, we ask that several items be brought in written form so information can be shared without taking additional time.

* Networking time is optional and not a formal part of the ISFAC meeting.

** Please bring copies of a one page overview or brochures describing what you offer for Military Members and their Families to share with the rest of the ISFAC. Time will only permit name and who you represent during the meeting.

*** If you have any events for Military Members and/or their Families in the next 6 months, please bring information on those as well (date, time, brief description) as time may not permit all to be discussed.
